

Notes and acknowledgements

This book is the review and summary of the application information outlined in the book of “Engineered Industrial Refrigeration Systems Application” by the writer of Thomas T.S. Wan. This book is available on-line at <http://tswan888.wordpress.com>.

Some of the equipment performance data and curves; the efficiency maps for centrifugal compressors are from the York manual.

Some of the equipment performance data and screw efficiency curves used in the illustration are from Frick manual.
